

Halo Hires Investor Relations Firm German-Based Value Relations

Vancouver, British Columbia, June 22, 2006 – Marc Cernovitch, President and CEO of Halo Resources Ltd. (TSX.V: HLO, TSX.V: HLO.WT.A, TSX.V: HLO.WT.B, OTC.BB:HLOSF, FSE:HRL) is pleased to announce that it has entered into an investors relations agreement with Value Relations GmbH. Value Relations is a full-service international investor relations company advising and assisting clients in all facets of investor relations including corporate finance projects, mergers and acquisitions, and initial public offerings. The managing partner of Value Relations is Mr. Christoph Bruning. Value Relations' head office is located in Frankfurt, Germany.

Pursuant to the agreement Value Relations will provide the Company with advice and assist the Company in structuring, coordinating and organizing general investor relations activities in Europe for the next 5 months. The Company will pay \$5,000 (U.S.) a month, plus disbursements, travel expenses, meetings and other related costs.

Value Relations also hosts an important convention called Stock Days, which is held four times a year in Frankfurt and elsewhere in Europe. Stock Day brings together members of the financial community including brokers, analysts, individual and institutional investors, and mining executives.

Halo Resources Ltd.

Halo is a Canadian-based resource company focused on the acquisition of near production base and precious base metal deposits. Currently the Company owns or has an interest in 4 projects: Dupont, which is an advanced stage gold project; Bachelor Lake, which is a gold exploration project, Quarter Moon which is a grass roots gold project, and the Sherridon project, which is a grass roots VMS project. The Company is operated by an experienced management team and backed by a strong network of mining financiers. The Company's growth strategy is to develop a diversified portfolio of advanced mining projects.

ON BEHALF OF THE BOARD

Marc Cernovitch,
President and CEO

The TSX Venture Exchange has not reviewed and does not accept responsibility for the adequacy or accuracy of this release. Except for the historical statements contained herein, this news release presents "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995 and similar Canadian legislation that involve inherent risks and uncertainties. Forward-looking statements include, but are not limited to, statements with respect to the future price of gold and other minerals and metals, the estimation of mineral reserves and resources, the realization of mineral reserve estimates, the capital expenditures, costs and timing of the development of new deposits, success of exploration activities, permitting time lines, requirements for additional capital, government regulation of mining operations, environmental risks, unanticipated reclamation expenses, title disputes or claims and limitations on insurance coverage. Generally, these forward-looking statements can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". Forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of Halo to be materially different from those expressed or implied by such forward-looking statements, including but not limited to: risks related to the integration of acquisitions; risks related to joint venture operations; actual results of current exploration activities; actual results of current or future reclamation activities; conclusions of economic evaluations; changes in project parameters as plans continue to be refined; future prices of gold and other minerals and metals; possible variations in ore reserves, grade or recovery rates; failure of equipment or processes to operate as anticipated; accidents, labour disputes and other risks of the mining industry; and delays in obtaining governmental approvals or financing or in the completion of development or construction activities. Although the management and officers of Halo Resources Ltd. believe that the expectations reflected in such forward-looking statements are based upon reasonable assumptions and have attempted to
